SAE Member Number:

Bernard Santavy Nominating Committee Chair.

Call for Volunteers

The Section Leadership Team is extending an invitation to the section membership to join us in managing the Mid-Michigan Section. There are opportunities to participate a little or a lot as your available time permits. The SLT needs help with communications and event promotions. Just helping with ticket sales and reservations can have a big impact on section performance with just a little personal time. The value of new volunteers is the fresh ideas they bring to the team. The SLT needs fresh thinking to stay current with the latest trends.

The SLT is looking for Individuals to get involved in leadership roles in the Mid-Michigan Section! As an officer you will have amazing opportunities to meet other engineers from our area working in the mobility technology field, build your network and enhance your leadership skills. There are many different opportunities to serve on our section's governing board with various committees available and numerous positions we look to fill this year.

We ask that Section Officers agree to a one-year term. The section year runs from June 1-May 31.

Individuals interested in leadership positions at the local level **MUST BE CURRENT SAE MEMBERS.**

Best regards

The Mid-Michigan Section Leadership Team
